# Qualified and experienced craftsmanship

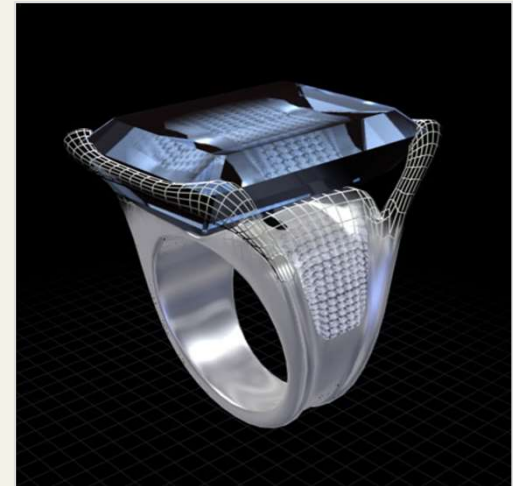

# Excellent workplace facilities in a multicultural & stable Country

# In house high-tech design and product development

## Intensive and qualified training and know-how upgrading

High-end quality and search for the uniqueness

# WE OFFER

## ❖ Product development & design

Extensive experience in the jewelry manufacturing combined with latest design and prototyping techniques to present our clients with the most qualified services suiting their budget and indications

## ❖ Highly skilled and trained manufacturing

20 years of manufacturing cooperation with some of the most prestigious brands in the jewelry industry have created the background of our skilled labor force.

## ❖ Competitive pricing & Duty Free access to EC & US markets

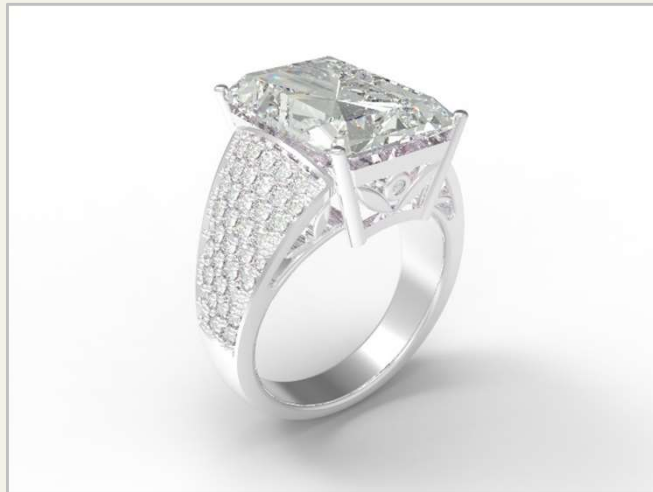

Excellent cost/quality ratio and manufacturing costs defined on the client's standard specifications; GSP and EUR1 certificates granting Duty Free access to the US and EC markets.

# MISSION STATEMENT

Inspired by our past and challenged by our future we are constantly in search of the finest gems and create unique and exquisite jewels, enhancing the essence of rarity, exclusivity and elegance.

The uncompromising elements of true Luxury.
